

[Updated: April 1, 2020]

To our beloved patients,

It is with very heavy hearts that we are writing to let you know effective immediately Pier Dental Centre will be temporarily closed due to the COVID-19 pandemic we are facing.

All appointments from March 17th – May 31st have been cancelled for the safety of our patients and team members. We will be contacting all of our patients who have had their appointments cancelled as soon as we know when our team can come back to work safely. We will be available via email at info@pierdentalcentre.com to answer any questions you may have during this time.

We kindly ask for your patience during this time as we are doing our best to get back to everyone as promptly as possible. We will be posting updates regarding further practice closures or openings on our social media channels in order to keep our patients as updated as possible.

As soon as our community is healthy, Pier Dental Centre and our incredible team members will be waiting with open arms, ready to continue doing what we love. We will be spending this next while close to home focusing on what matters – our family and loved ones. It is our duty as citizens to do what is right.

Thank you for all your support and co-operation at this time. We look forward to making you all smile again soon.
